Name of Offeror or Contractor: GM GDLS DEFENSE GROUP L.L.C.

SECTION A - SUPPLEMENTAL INFORMATION

PROGRAM: Stryker Armored Vehicle Program

- 1. This Modification 60 to Delivery Order 0002 under Requirements Contract DAAE07-00-D-M051 is a supplemental agreement.
- 2. Conditional Acceptance. The purpose of this modification is to establish the parameters for conditional acceptance of 11 Infantry Carrier Vehicles (ICV). The Contractor Serial Numbers are as follows:

ICV-0002 ICV-0092
ICV-0003 ICV-0093
ICV-0038 ICV-0097
ICV-0090 ICV-0098
ICV-0091 ICV-0099
ICV-0106

- 3. Baseline Configuration. The baseline configuration for the vehicles manufactured in the London Ontario Canada facility were manufactured to the contractor's General Assembly ICV Part Number 10651420-011 (12479551), dated 20 February 2002.
- 4. Configuration Management. The contract provisions of C.2.8, C.3.5 and, for any unique/new items developed under Delivery Order 0001 applicable to the ICVs, C.5.5 are waived for the vehicles covered by this modification. This waiver of the Configuration Management requirements is conditioned on the following:
- a. Software Licenses. The Contractor shall be responsible for acquiring the required production related software licenses for the family of Stryker Armored Vehicles and all ancillary equipment for all vehicles delivered. The term "ancillary support equipment" includes, but is not limited to, training equipment, test equipment, and loader/verifiers and/or security devices, if applicable. Any software changes introduced unilaterally by the contractor shall be compatible with all previously produced vehicle or ancillary support equipment configurations.
- b. CR/ECOs. Changes (Change Requests (CR), Engineering Change Orders (ECO), Waivers and Deviations) to the contractor's baseline configuration referenced in paragraph 3 above may be made by the contractor, provided the changes meet the requirements of the contract, the ICV Performance Specification, and any Interface Control Documents related to Government Furnished Material.
- 1) The contractor shall provide all contractor generated changes (CRs/ECOs) processed since the baseline configuration was established. The changes shall be provided for Government review in accordance with the contract requirements identified in C.2.6 Contractor Integrated Data Service (CIDS) and Integrated Data Environment (IDE). The Government shall be allowed to electronically access the Contractor's Change Management data process. Until an automatic notification process and Government access are automated and functional, the changes shall be provided and reviewed in meeting/conference forum to be agreed to by the parties.
- 2) The Joint Contractor-Government Configuration Management (CM) Team has established a corrective action plan for the CM process. To clarify the CM process, the contractor and the Government agree to execute a contract modification which specifies the CM process NLT 15 August 2002.
- 3) Delivery Team Meetings. The previously established joint contractor-Government Delivery Team shall coordinate the resolution of production, performance, and vehicle configuration issues.
- 5. The contract provisions of C.3.10 are waived for the vehicles covered by this modification subject to the following conditions:
- a. The contractor complies with requirements covered by previous modifications to correct and retrofit any cadmium or Hexavalent Chromium coated or treated parts in the vehicles covered by this modification. (Reference contractor waivers W-BCT-0002, W-BCT-0004, and W-BCT-0005 R1).
- b. The contractor provides a list of cadmium and hexavalent chromium treated parts specific to each of the vehicles accepted herein. The lists will be included in the contract file and will be used for corrective action tracking until all parts have been cleaned up and retrofitted or identified/supported as parts without any technically acceptable alternatives. In accordance with Contract Data Requirements List (CDRL) Number A044, the contractor shall provide the vehicle specific lists within 30 business days of DD 250 approval.
- 6. The contractor has an affirmative obligation to provide notice to the Government of any failures, defects (excluding minor defects) or deficiencies in parts, components or assemblies provisionally released. The contractor shall promptly notify the Government of any failure, defect, or deficiency noted during contractor testing. The contractor assumes total responsibility to timely correct any failures to meet the contract requirements. For vehicles accepted but not yet shipped, the contractor shall correct the

Name of Offeror or Contractor: GM GDLS DEFENSE GROUP L.L.C.

hardware/software by removal of deficient components and reinstallation of approved hardware/software. If the vehicle has been shipped, correction/reinstallation of the hardware/software shall be at Government direction. In the event, the Government elects to make its own correction/installation of any deficiencies after delivery/shipment, it shall be entitled to an equitable adjustment of the contract prices.

- 7. The vehicles will be conditionally accepted pending completion of the First Production Vehicle Inspection (FPVI). For any discrepancy discovered during the completion of the FPVI, the contractor shall perform corrective action and/or retrofit of all ICVs previously accepted. The corrective action and/or retrofit of the vehicles shall be performed at a location specified by the Government, at no additional cost to the Government.
- 8. To inspect the vehicles covered by this modification, the Government will use the conditionally accepted Final Inspection Record (FIR) ICV FIR Revision D, dated 31 May 2002.
- 9. Pursuant to the FIRs identified in paragraph 8 above, the subject ICVs will be conditionally accepted. These vehicles will be conditionally accepted until all terms of acceptance, including but not limited to those listed in this modification, are fulfilled. This conditional acceptance shall not relieve the Contractor from complying with all requirements of the terms and conditions of the contract.
- a. Hardware/Parts Shortages. The parts and hardware shortages for each vehicle are identified in Attachment A which is a part of the contract file. The contractor shall submit the vehicle specific Attachment A within 2 business days after the DD 250 approval. If a DD 1149 is required, the contractor shall provide the vehicle specific Attachment A within two business days after shipment. The PCO shall be notified one (1) business day prior to shipment of any changes to the terms as stated herein and/or any additional changes that may occur to the vehicles listed in this modification. The parts and hardware shortages shall be installed on the vehicles, at a location specified by the Government. The installation is subject to Government inspection and acceptance. This condition will be met upon Government verification that the installation has been satisfactorily accomplished. The Attachment A addresses the open issues and Attachment B addresses the retrofit plan associated with the vehicles referenced in paragraph 2 above.

The contractor shall generate and maintain a vehicle unique Vehicle Information Data Sheets (VIDS), formerly Attachment B. The contractor shall provide an automated solution that can function within the IDE. The VIDS database shall incorporate all the information related to required, known or planned retrofits of the vehicles identifying and tracking the missing parts, corrected parts, software changes, unresolved/open issues pending corrective action identification or any other action that may result in a retrofit. The contractor shall deliver electronically a weekly update to the VIDS (IAW CDRL TBD) beginning no later than 15 August 2002. At a minimum, the VIDS update shall identify each vehicle by serial number, each retrofit applied, retrofits remaining and pending or open issues that may result in retrofit. The VIDS submission shall be structured to sort by retrofit items/issues as well as by vehicle. Until the database is generated, the contractor shall manually generate and provide separate VIDS for each vehicle conditionally accepted.

- b. Contractor Waivers to the Contractor's Baseline Configuration. The Government conditionally accepts vehicles pending resolution/correction of the following Contractor waivers to the vehicles Configuration Baseline and/or Performance Specification requirements identified herein:
  - 1) The Alternator failure indicator. (Reference Contractor Waiver W-BCT-0007 R3)
  - 2) The Power Pack Interface (PPI) software/hardware issues. (Reference Contractor Waiver W-BCT-0008 R3)
  - 3) The Climate Control Unit (CCU) power moding issues. (Reference Contractor Waiver W-BCT-0009 R4)
  - 4) The Gauge Cluster Unit (GCU) intermittent lock-up software moding issue. (Reference Contractor Waiver W-BCT-0010 R3)
- 5) Waiver to Performance Specification Paragraph 3.1.1.10.3.1 entitled "Exterior Lighting". (Reference Contractor Waiver W-BCT-0021). The contractor shall provide an interim solution for the vehicle side markers and have the material on hand at Fort Lewis or Yakima, WA, as required, for application on the vehicles NLT 18 June 2002. The contractor shall provide the final corrective action plan for vehicle side markers NLT 30 June 2002.
  - 6) The winch. (Reference Contractor Waiver W-BCT-024)
- c. Execution of the retrofit plan per the steps, procedures and schedule identified in  $Attachment\ B$  which is incorporated into this modification by reference.
- d. Height Management System (HMS). The contractor may download the upgraded HMS production software on all vehicles presented for acceptance. In the event the HMS does not meet the requirements of the contract, the contractor shall perform any corrective action and/or retrofit of the HMS, at a location specified by the Government, at no additional cost to the Government.
  - e. Armor (14.5mm). In the event the 14.5 Armor does not meet the requirements of the contract, the contractor shall perform any

Name of Offeror or Contractor: GM GDLS DEFENSE GROUP L.L.C.

corrective action and/or retrofit of the armor, at a location specified by the Government, at no additional cost to the Government.

- f. Armor Panel Grit Adhesion Issue. Vehicles may be conditionally accepted and shipped prior to the implementation of the corrective action for the Armor panel grit adhesion issue. The armor panel grit issue must be added to Attachment A. The contractor agrees to provide the necessary corrective action and retrofit all vehicles as necessary, at a location specified by the Government, at no additional cost to the Government.
- 10. The parties agree to reduce the unit price of each of the vehicles presented for acceptance by \$28,678 prior to liquidation of progress payments) pending mutual resolution of production verification test provisions. The parties agree to resolve any open Performance Specification issues, revise/clarify the specification, and address open compliance elements under discussion.
- 11. The Government will withhold \$290,970 per vehicle (after the liquidation of progress payments) for all of the items addressed above in Paragraph 9 of this modification.
- a. Upon installation of the Armor on the vehicles, the contractor may invoice for the total amount of the withhold due to the Armor shortage (\$72,415 per vehicle). The release of the withhold is subject to Government inspection and acceptance of the armor. This condition will be met upon Government verification that the installation has been satisfactorily accomplished.
- b. Upon installation of the Remote Weapon Station (RWS) on the vehicles, the contractor may invoice for \$119,494 per vehicle of the total amount withheld due to the RWS shortage. This partial release of the withhold is subject to Government inspection and acceptance of the RWS installation. This condition will be met upon Government verification that the installation has been satisfactorily accomplished. The remainder continues to be withheld until the contractor's RWS product qualification testing is successfully completed.
- 12. Shipping instructions.
- a. Subsequent to vehicle inspection/acceptance, the vehicles will be shipped in place until the Armor and RWS are installed satisfactorily. Under no circumstances are the vehicles to be shipped to Fort Lewis without the Armor and RWS properly installed. While the vehicles are shipped in place, the contractor shall be responsible for the cost, the security, and the maintenance of the vehicles. The Government will not incur any expense due to the shipment of the vehicles in place.
- b. While the vehicles are shipped in place, the contractor may have access to the vehicles to install some of the hardware/parts shortages addressed in Paragraph 9 above.
- c. In order to ensure the vehicle shipping height does not exceed 110 inches, the contractor shall stow and fold the RWS into its transport position prior to shipping.
- 13. As a result of this modification, the total price of Delivery Order 0002 is decreased by \$315,458. Except as specifically stated above, all other terms and conditions of Delivery Order 0002 remain unchanged and in full force and effect.
